A kennel assistant, experienced in standard bathing procedures, will perform your pet's bath today. **These staff members are not professionally trained groomers.** If your pet is found to have significant matting, or a hair coat in need of extensive combing out, we may be unable to provide these services and have to refer you to a professional groomer.

In the event that we need to contact you to discuss these issues, please provide phone number(s) where we may contact you today:
